Radiology Associates' Administrator Kim Singletary Elected President to RBMA Delta States Chapter Board

Baton Rouge, La. (August 10, 2016) Radiology Associates announces the election of its administrator Kim Singletary to Radiology Business Management Association's Delta States Chapter Board as President. She is elected for a two-year term. The Delta States Chapter covers Louisiana and Mississippi.

The Radiology Business Management Association (RBMA) is an industry-leading organization comprised of more than 2,400 professionals who focus on the business of radiology. RBMA members support diagnostic imaging, interventional radiology and radiation oncology providers in the full spectrum of practice settings. RBMA connects members nationwide to valuable information, education, and practice-related resources and serves as an authoritative industry voice on behalf of shared member interests.

Chapters hold their own meetings in addition to the National Organization in an effort to reach out and connect radiology professionals in the same geographic vicinity. Chapter meetings focus on local radiology business concerns. Singletary is one of the founding members of The Delta States chapter.

"The RBMA makes a valuable contribution to the overall quality of radiology business administration," says Robert F. Hayden, MD, Radiology Associates' Managing Partner. "We are proud to have Kim serve as Chapter President. The RBMA will undoubtedly benefit from her contribution."

"After more than 30 years in the industry, I am honored to serve as the President of the the Delta States Chapter of RBMA," Kim Singletary says. "I have learned so much from the organization over the years. I am excited to give back and support my colleagues in the Louisiana and Mississippi area."

About Radiology Associates

Radiology Associates, L.L.C. brings more than 65 years of quality radiology care to South Louisiana. The 23-member group services the Baton Rouge Metropolitan Area and surrounding communities at Our Lady of the Lake Regional Medical Center, Woman's Hospital, Lake Imaging Center and Mary Bird Perkins Cancer Center with full-service diagnostic and state of the art interventional radiology. The practice services men's, women's, infants' and children's-based radiology.
