

Post Op Instructions Following Port Insertion and Removal

- ✓ Remove clear dressing and gauze in 4 days
- ✓ Allow steri-strips (small tape-like strips) to come off on their own or you may peel off after 10 days
- ✓ No heavy lifting for 10 days
- ✓ Keep port insertion or removal site dry for 10 days - you may cover with a small wash-cloth and plastic wrap for shower and bath times, this is to aid in the healing process and discourage infection
- ✓ The insertion or removal site may remain uncovered after day 4
- ✓ Call 225-765-7736 with any questions. If you need assistance after office hours, call 765-8819
